Chapter A: Essential Concepts

Introduction	3
About Your Pro Tools Software User's Guide	3
How to use this manual	4
What's New in Pro Tools 3.4	5
The Physics of Sound	5
Analog Audio	5
Digital Audio	6
About the Digidesign Audio Engine (DAE)	7
What is DAE PowerMix?	7
Some New Recording Terms and Concepts	8
How Hard Disk Recording Differs From Tape-based Recording	8
Essential Concepts Defined:	9
Session	9
Sound files	9
Regions	10
Playlist	10
Tracks	10
Voices	10
Table of Track and Voice Limits of all Systems	11
About Pro Tools with DAE PowerMix	11
Channels	11
Pro Tools System Channel Capabilities	11
The Difference Between Virtual Tracks and Physical Tracks	12
The Cycle of a Typical Pro Tools Project	13
Keeping Your Hard Disk Tuned Up	15
About Rebuilding your Desktop	17
Conclusion	17

Chapter B: Pro Tools Basics

Introduction	21
Starting Up and Shutting Down Your System	21
Preparing Your System	22
Configuring Hardware Setup for Pro Tools Project or Audiomedia II:	23
Configuring the 888 I/O Audio Interface	24
Configuring the 882 Studio Audio Interface	25
Configuring Audiomedia	26
Selecting Your Operating Mode	26
Direct Output Mode	27
Stereo Mix Output Mode	27
Configuring Pro Tools for a Power Macintosh:	28
Using Pro Tools Without Digidesign Hardware	30
If You Plan to Work With MIDI	32

Are You Using OMS?	33
Preparing Your Pro Tools MIDI Setup	33
If You are Using a MIDI Keyboard Controller	34
If You Are Using a Digidesign SMPTE Slave Driver or JL Cooper CS-10	34
If You Are Using a Digidesign SMPTE Slave Driver with OMS	35
If You Are Using a MIDI Fader Box or other Control Surface	36
If You Are Using a Digidesign ADAT Interface	36
Creating a New Session	37
Opening an Existing Session	40
Virtual Voices	40
Loading Previously Recorded Audio Files into a Session	41
Auditioning Files in the Import Audio Dialog	43
Import Audio Dialog Keyboard Shortcuts:	43
Batch Importing with Drag-drop	44
If You Want to Re-use Sound files/Regions in Other Sessions	45
Track Transfer™ utility software	45
Saving a Session	45
Save Session	45
Save Session As...	46
Save Session Copy In...	46
Creating a Custom Session Template	47
Pro Tools' Get Info Feature	49
Closing a Session	50
Quitting a Session	50
Understanding the Mix and Edit Windows	51
The Mix Window	51
An Audio Track	53
A MIDI Track	54
Auxiliary Inputs	54
Record Enable Button	55
Automation Record Enable	55
Solo and Mute Buttons	55
Audio Input Selector	56
Audio Output Selector	56
Voice Selector	57
MIDI Port Selector	58
MIDI Channel Selector	58
Track Volume/Input Level Indicator	59
Pan Indicator	59
Pan Slider	59
Track Volume/Monitor Level Fader	59
Level Meter	60
Track Name	60
Track Inserts Button/Inserts & Sends Editor	61
Track Sends/Inserts & Sends Editor	61
The Edit Window	62
The Slip/Shuffle/Spot/Grid Buttons	63
Shuffle Mode	63
Slip Mode	63

Spot Mode	63
Grid Mode	64
The Display Scale Arrows	64
The Zoomer	65
The Scrubber	65
The Trimmer	66
The Selector	66
The Grabber	67
The Selection and Position Indicator Boxes	67
Time Indicator Box	68
The Nudge/Grid Units Selector	68
The Time Scale Indicator (a.k.a. the Timeline)	69
An Audio Track	70
A MIDI Track	70
Track Name	70
Record Enable Button	71
Automation Record Enable	71
Solo and Mute Buttons	71
Voice Selector	71
MIDI Channel	72
MIDI Port Selector	72
Track Display Format Selector	73
Audio Region List	73
MIDI Region List	74
The Transport	75
Autolocate buttons	76
Punch In/Out Time Indicators/Buttons	77
Conclusion	79

Chapter C: Working with Tracks

Introduction	83
How Pro Tools Manages Tracks	83
Creating New Tracks	84
Deleting a Track	86
Playing an Audio Track	86
The Transport	87
The Space bar	87
MIDI Controller	87
Virtual Tracks, Voices, and Track Priority	88
Summary of Voice and Virtual Track Limits of Pro Tools systems	92
Virtual Voices	92
Assigning Voices, Output Channels and Track Priority	93
Choosing an Output Mode and Assigning Outputs	94
Changing a Track's Playback Priority	95
Setting MIDI Channels	96
Soloing and Muting Tracks	97
Adjusting the Volume and Panning of a Track	98
Configuring the Display	100
Show Mix Window	100

Show Edit Window	101
Show Transport	101
Show/Hide Tracks	101
Reduce Track Size	102
Track Display Format	103
Color Coding Tracks	105
Displaying the Time Scale	106
Bars & Beats	106
Minutes:Seconds	106
Time Code	107
Feet.Frames	107

Chapter D: Recording

Introduction	111
Beginning a Recording Session	111
Labeling System Inputs and Outputs	113
Recording to Multiple Hard Drives	114
A Few Words About Input Levels	115
Integrating MIDI into a Recording Session	116
1. Recording MIDI First	116
2. Recording Audio First	116
Using the MIDI Metronome	117
Importing a MIDI File	118
Suggested Recording Techniques	121
Additional Tracking Suggestions	121
Initiating Recording	122
Stereo Recording	126
Recording From a Digital Source	127
Transferring Audio From an Audio CD	129
Using QuickPunch	131
Using QuickPunch to Record Automation	136
Mapping Transport Controls to a MIDI Controller	137
Recording a MIDI Track	138
Exporting a MIDI File	140

Chapter E: Editing

Introduction	145
How Non-destructive Editing Works	145
Understanding Waveforms On Screen	146
Understanding MIDI Data On Screen	149
Auditioning Tracks	151
Using the Scrubber	152
Selecting Waveforms	153
Changing the Length of a Selection	154
Making a Selection Across All Tracks at the Same Time	155
Other Useful Selection Techniques	156
Shift-Scrub	156
Shift-Tab/Option-Shift-Tab	157
Shift-Autolocate	157

Testing a Selection Before You Make it into a New Region	157
Looping Playback	157
Creating New Audio Regions	158
The Capture Region Command	158
The Separate Region Command	159
The Trim Region Command	161
Healing a Separation	161
Placing Regions in Tracks	162
Selecting an Entire Region	163
Selecting Multiple Regions	163
Deleting Regions From a Track	164
Trimming Regions	165
Moving Regions: Slip, Shuffle, Spot and Grid Modes	166
Shuffle and Slip Modes	167
Slip Mode	168
Spot and Grid Modes	169
Spot Mode	169
Grid Mode	170
Moving Regions	171
Locking Regions	172
Nudging Regions	173
Using Autolocation Points	174
Stripping Silence from a Region	176
Using Other Edit Menu Commands with Audio or MIDI Regions	178
Cutting Regions	179
Copying Regions	180
Pasting Regions	181
Clearing Regions	182
Duplicating Regions	183
Muting/Unmuting Regions	184
Quantizing Regions	185
Quantizing MIDI Note Events	185
Transposing MIDI Data	187
Creating Crossfades Between Regions	188
Fade Out Shapes	189
Fade In Shapes	190
Some Basic Curve Combinations:	191
Creating Crossfades Between Several Regions at Once	194
Creating Fade Ins/Outs	195
Creating Tempo Data with the Identify Beat Command	197
Quantizing Audio Regions	198
Editing Automation Data	199
Punch-In Recording Using the Edit Window	200
Monitoring During Punch-In	201
Managing Regions Efficiently	202
Abbreviated Region Names in the Regions List	202
Showing Hard Disk Volume Names in the Audio Regions List	203
Renaming Regions	204

Removing Unused Regions	205
Compacting an Audio File	207
Setting a Default Length for the Edit Window	208
Color Coding Tracks	209
Sharing Regions Between Sessions	210
Track Transfer™ Utility Software	211
Exporting Audio to Sound Designer II for	211
Additional Editing	211

Chapter F: Working with SMPTE

Introduction	217
About Time Code and Synchronization	217
SMPTE Formats	219
Why Synchronization is Necessary	220
Using SMPTE	221
Choosing a Synchronization Type	222
The Digidesign Video Slave Driver	223
The Digidesign SMPTE Slave Driver	223
Preparing Pro Tools to Work with SMPTE	224
SMPTE Formats	224
Setting a SMPTE Start Frame	225
Displaying Time in SMPTE Frames	226
About Pull Down and Pull Up Sample Rates for Editing Film	227
Generating Time Code with Pro Tools	231
Generating SMPTE Time Code while Pro Tools is On-Line	232
Synchronizing an OMS-compatible Sequencer to Pro Tools	233
About Time Stamping	235
About the Show Original Time Code in Regions command	235
About the Time Stamp Selected Command	236
Putting Pro Tools On-line	237
Recording On-Line	237
Spotting Regions to SMPTE Frame Locations	238
Auto-Spot Regions	242
Identify Sync Point	243
Locking a Region	244
Synchronization Troubleshooting	245

Chapter G: Mixing

Introduction	251
Suggestions for Creating Good Mixes	251
Using a MIDI Control Surface with Pro Tools	252
Using Digital EQ	253
Accessing EQs	254
Types of EQ	255
Copying, Pasting, Importing and Exporting EQ Parameters	260
Setting Up Effects Loops	262
Recording An Effect to Disk	266
Adding External Effects to Tracks in Audiomedia II and DAE PowerMix-based Pro Tools Systems	267

Using Mix Automation	268
Turning Off Automation	270
Using QuickPunch to Record Automation	270
Bouncing Tracks	271
Final Stereo Mixdown	275
Mastering to a Digital Recorder	277
Some Things to be Aware of When Mastering Digitally	278

Chapter H: Pro Tools Reference

Introduction	283
The File Menu	283
New Session	284
Open Session	285
Close Session	285
Save Session	285
Save Session As...	286
Save Session Copy In...	286
Revert To Saved	287
Bounce to Disk	287
New Audio Tracks	288
New Auxiliary Inputs	288
New Master Faders	289
New MIDI Tracks	289
Import Audio	289
Import MIDI	290
Export MIDI...	291
Group/Ungroup Tracks	292
Delete Tracks	292
Get Info	292
Quit.....	293
The Edit Menu	294
Undo	295
Cut	295
Copy	295
Paste	295
Clear	295
Duplicate	296
Copy Effects Parameters	296
Paste Effects Parameters	296
Select All	296
Capture Region	296
Separate Region	297
Trim Region	297
Heal Separation	297
Mute/Unmute Region	298
Lock/Unlock Region	298
Identify/Remove Sync Point	298

Identify Beat	298
Identify Silence	299
Strip Silence	299
Fades.....	300
Quantize Region	301
MIDI Quantize	301
MIDI Transpose	302
 The Options Menu	 302
Destructive Record	302
QuickPunch	
(Pro Tools Project systems only)	303
Online	303
Pre/Post Roll Playback	303
Loop Selection	303
Mute Frees Voice	304
Ignore Automation	304
Auto-Spot Regions	304
MIDI Thru	304
Active in Background	304
 The Setups Menu	 305
Pre/Post-Roll	305
Playback Engine	305
Hardware	306
Disk Allocation	307
Serial Ports	307
MIDI Metronome	308
Peripherals	308
I/O Labels	309
Preferences	310
Time Code	312
Feet.Frames.....	314
The Display Menu	315
Show Mix Window	315
Show Edit Window	315
Show Transport Window	315
Show/Hide Tracks	315
Show Extra Views in Mix Window	316
Show Extra Views in Edit Window	316
Show I/O View	316
Show Inserts View	316
Show Sends View	316
Show Current Time Code in Regions	317
Show Original Time Code in Regions	317
Reduce Track Size	317
Show File Names in Region List	317
Show Volume Names in Region List	317
Bars & Beats	318

Minutes:Seconds	318
Time Code	318
Feet.Frames	318
The Region List Menu	318
Import Audio	318
Import MIDI	319
Select Unused Audio	320
Select Unused MIDI	320
Select All Audio	320
Select All MIDI	320
Clear Selected	320
Compact Selected	321
Rename Selected	322
Time Stamp Selected	323
Export Selected	323
Open Selected in SD II™	324

Keyboard Shortcuts and Commands

Record/Playback Functions:	329
Mixer Operation Shortcuts:	329
Return Key:	330
Editing Shortcuts:	330
Transport/Location Window:	331
Tab Key:	331
Auditioning Edit Points:	331
Plus/Minus Keys:	332
Region List Shortcuts:	332
Zoom Magnification Shortcuts:	332
Selector Tool Shortcuts:	332
Grabber Tool Shortcuts:	333
Editing Automation with the Trim Tool:	333
Parameter Adjustments:	333
Disk Allocation:	334
Import Audio Dialog Shortcuts:	334
Spot Dialog Shortcuts:	334
