

Important!

Apple Workgroup Server 95 Users

If you are running AppleSearch Server software on an Apple Workgroup Server 95, you **must** install the *Apple Workgroup Server 95 Tune-Up* disks on your server's hard drive in order for AppleSearch to work.

AppleShare Users

If you are running AppleSearch software with AppleShare version 3.0, 3.0.1, or 3.0.2, install the *AppleShare Version 3.0.3 Patch* disk on your server's hard drive in order for AppleSearch to work.
