

Claris Organizer™

FOR MACINTOSH

Claris Organizer software is the all-in-one, intelligent personal information manager. It seamlessly integrates your calendar, contacts, tasks, and notes into one intuitive, compact solution. This integration, coupled with the award-winning Claris ease of use, makes it the ultimate personal organizer.

Complete label support.

Create perfect mailing labels instantly by choosing pre-formatted Avery label layouts. Specify the label to start on, and avoid wasting partially-used label sheets.

Flexible print options.

Easily print calendars, phone lists, fax cover sheets, envelopes, addresses, and appointments. Use built-in day planner print formats to print pages for your Franklin Day Planner, Day-Timer, and FiloFax.

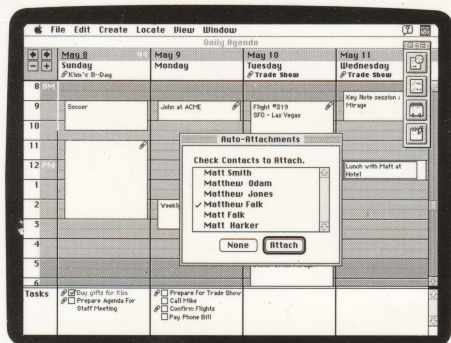

Track information easily.

Events can be viewed and printed in a number of different formats including monthly, weekly and daily. To schedule an appointment or to-do item simply select the day and enter your information.

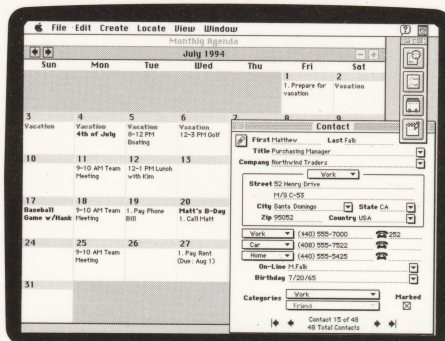

Breakthrough intelligence.

Get organised quickly and easily with intelligent features such as automatic linking and drag-and-drop functionality.

Accelerate data input with automatic linking. Simply type "Lunch with Matt" and Claris Organizer automatically finds all the Matts in your contact list.

Claris Organizer gives you everything you need to manage your appointments, contacts and to-dos in one full-featured application. Personal organisation has never been so easy.
