# COLOR IT!

## The Best Just Got Better!

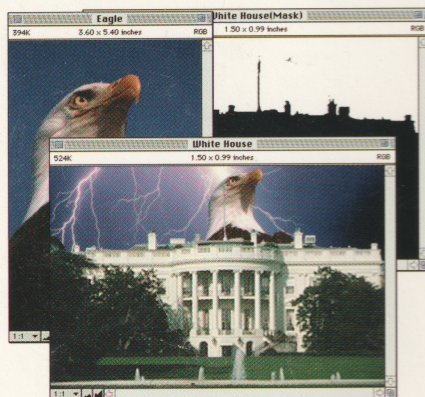

Color-It! is a 32-bit color paint and image editing program that gives you all the power and precision you need to create and enhance your images.

Advanced masking capabilities, flexible floating palettes, and user configurable multiple undos make Color-It! one of the most advanced and yet easy to use image processing programs available.

## Color-It! Features Include:

- Four-Color Separations (CMYK)
- RGB Channel Editing
- Twain Support
- Extrude and Drop Shadow Tools
- Bezier Pen Tool
- Combined Palettes
- Unsharp Mask
- Levels and Curves Filters

## Plus Much More!
