THE TOTALLY TECHIE WORLD OF **YOUNG DILBERT™** **HI-TECH HIJINKS™**

Game Overview

In *The Totally Techie World of Young Dilbert, Hi-Tech Hijinks™*, kids ages 5 and older (and parents, too) travel inside a computer with Young Dilbert™ and his friends. Here players solve adventures that help rid a computer of a pesky virus, save the world from a hurtling asteroid, find a friend for Bob the Dinosaur, and chase aliens from Young Dilbert's home. Each adventure begins in Young Dilbert's bedroom. Players must successfully complete each of the five games found in each adventure before they can resolve the problem. When all four adventures are completed, the player "wins" the game. Players may re-play games by re-entering the game screens, or by going into the Player's Arcade area, where they can play all of the games over and over as many times as they wish.

This will take no more than 2.5 MB of hard disk space. The installation program will copy one game file to your hard disk. You will still need to insert the *Hi-Tech Hijinks* CD into your CD-ROM drive each time you play.

The Adventures

The Computer Virus

Something is drastically wrong with Young Dilbert's computer. A nasty virus has taken over and crippled all the computer's systems. His only option is to get inside his computer and put all the broken parts back together. When everything is fixed, the virus is gone. The games in this adventure: RAM, power supply, CPU, hard disk, and modem challenge you to fix a computer system in a unique way.

Escaped Aliens

While playing a video game on his computer, some of the game's aliens escape into the real world wreaking havoc on Young Dilbert's house. He must locate and capture all of them, then return them to their rightful place within the computer game. Each of the four groups of aliens create their unique sort of mayhem in a different part of Young Dilbert's home, and he must use the game's "help" file to figure out how to successfully catch them. The alien roundup games occur in various rooms in Young Dilbert's house: the Living Room, Bathroom, Basement, and Den.

Asteroid Disaster

A large asteroid is hurtling through space on a collision course with planet earth. Young Dilbert, and his science class lab partner Noriko, decide to try to save the world by designing an "Anti-Pollution Laser Particle Cannon" to shatter the dangerous mass into a zillion harmless little pieces. By searching the Internet, Young Dilbert and Noriko must locate and order each of the main pieces of the cannon. When the pieces are all gathered, Young Dilbert and Noriko save the earth. Watch what happens at the science fair!

A Friend for Bob

Bob the Dinosaur is sad because his fourteen millionth birthday is coming up and there are no other dinosaurs around to sing him the dinosaur's special "Fourteen Millionth Birthday Song." Convinced that other "Bobs" must be out there, Young Dilbert and Dogbert decide to search for other dinosaurs who might be living incognito. With the help of their computer and "On-Line Dinosaur Atlas" Young Dilbert and Dogbert search the post office, department store, park, and school playground for dinosaurs. Players must successfully complete the activity in each area to find the hidden, but friendly, dinosaurs.
