The Legend Of Arman

From the earliest days, a royal line of God-Kings has benevolently watched over us, guiding the actions of all nations.

And the world prospered; until the Black Brethren arose.

Jealous of the King's powers, they swore to eradicate the Royal Line. The King's heir, Arman, was still a child when the Black Brethren stormed the palace atop Mount Psion. They killed the King and exiled Arman into space for eternity in cryogenic sleep.

The age of despair had begun. Death camps. Torture. Brainwashing. Environmental corruption. Genocide.

Its 400 years later. And Arman, the last of the Warrior Messiah's has returned. Vengeance will be his. No flesh shall be spared.
