

# FileMaker Pro Runtime

## What is the Solutions Development Kit?

Claris now makes it easy for CSA members to create and distribute FileMaker Pro solutions on Macintosh or Windows. Just one CD-ROM contains everything you need to create and distribute standalone or multi-user runtime solutions of FileMaker Pro for Macintosh, Windows or both. Simple point-and-click operation lets you work quickly, while full-featured development tools make it easy to explore your options.

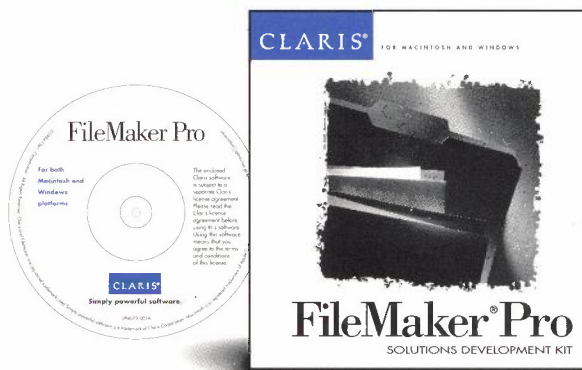

## Why should I get it?

With FileMaker Pro SDK, you can distribute runtime solutions and your customers won't have to buy a full copy of FileMaker Pro! Runtime solutions created with FileMaker Pro SDK are totally functional with FileMaker Pro 2.x and the FileMaker Pro Server, ensuring complete compatibility with the whole FileMaker Pro product family. And because FileMaker Pro runtime won't let end users modify the database structure, it protects the integrity of your runtime solution. So if you have a big idea for customizing FileMaker Pro, get FileMaker Pro SDK.

## What do I get with the SDK?

One CD-ROM contains all the development resources you need for Macintosh and Windows:

- FileMaker Pro SDK
- FileMaker Pro runtime engine
- Sample buttons and templates
- Technical bibliography of cross-platform issues and recommendations
- QuickTime for Macintosh
- AppleEvents database for Macintosh
- AppleScript/FileMaker Pro examples
- AppleScript 1.1 runtime with Script Editor
- FileMaker Pro Translator Windows utility for Q&A databases

# Join CSA Today and Watch Your Business Grow

## WHAT IS CSA?

In addition to Simply Powerful Software, Claris customers need software experts like you to help build complete solutions that meet their needs. The Claris Solutions Alliance (CSA) helps achieve this goal by supporting your special needs and by promoting your services and solutions to Claris customers.

## WHO SHOULD JOIN?

Our CSA membership includes Claris product experts in the

following categories:

**Consultants:** recommending, designing, integrating or installing customized Claris-based solutions.

**Solution Providers:** combining Claris products with market expertise to deliver ready-made solutions for everything from common business problems to specific vertical industry applications.

**Trainers:** educating customers on the best ways to use Claris products to get the job done.

**Publishers:** supporting Claris products with books, training videos, audio cassettes, templates and courseware.

## WHY SHOULD I JOIN?

Take advantage of Claris resources and knowledge to increase your productivity and expand your business. Keep up to date on the latest product developments, be informed about tips and techniques, and gain access to our most knowledgeable support staff. Establish a relationship with Claris sales representatives to promote your products and services and attract more customers.

## WHAT DO I GET?

Here is a partial list of Claris Solutions Alliance membership benefits:

- Priority access to Claris technical support services
- Unlimited use of Claris TechInfo Library
- Quarterly issues of Claris TechInfo Journal
- Free Online support services
- CSA Toolbox CD-ROM software
- Free listing in Claris Solutions Directory
- Public relations and tradeshow support
- Substantial product discounts from Claris including FileMaker Pro SDK.
