Dear Customer,

Thank you for your recent purchase of Mavis Beacon Teaches Typing. As developers of the most intelligent — and the most personable — microcomputer typing tutor in the world, we welcome the comments of our customers.

Based on those comments, we have created two plans to provide backup insurance for your purchase of Mavis Beacon Teaches Typing. The first plan is for those who would like a backup copy of the Mavis Beacon key disk. The second plan is for people who would prefer a personalized version of the program that does not prompt for the key disk.

While the disks provided with Mavis Beacon Teaches Typing are made only from the highest quality materials available, some of our customers have asked for duplicate backup disks. If you would like a backup disk, just fill out and return this form along with a check for \$5.00 (made payable in U.S. funds to The Software Toolworks) to the address below and we will send your backup disks right away.

Other customers have requested a version of Mavis Beacon that does not require a key disk to operate. We are pleased to offer personalized copies of the program which do not require a key disk and which may be backed up as many times as desired. If you would like to receive this version of Mavis Beacon Teaches Typing, simply fill out and return this form along with a check for \$10.00 (payable in U.S. funds to The Software Toolworks). Your personalized copy of Mavis Beacon will be sent back to you right away.

As a further consideration to our customers, if you have a Mac 512 K with 400K diskettes, just send us the 800K diskette enclosed along with \$2.00 for shipping and handling and we will return two 400K diskettes for use on your system.

We hope you are enjoying Mavis Beacon Teaches Typing and look forward to hearing any comments you may have.
