FLUENT FONTS™

has a typestyle for every Macintosh user, from the serious professional to the playful amateur. Typefaces are designed for maximum-quality printing on either the ImageWriter™ I or II.

Two 800K disks full of fonts with:

...symbols for astronomy, biology, chemistry, meteorology, and advanced mathematics.

...easy-to-read text fonts for word processing in many languages. There are separate Czech, Polish, Russian & Ukrainian fonts. Most fonts support European languages.

...small fonts for forms and tight spaces.

...large and decorative display fonts for graphic arts, newsletters, awards & announcements.

...useful fonts for programmers.

...image and border fonts for enhancing your documents.

Fluent Fonts install easily—with the included Font/DA Mover—and can be used in any program with a font menu.

TRADEMARKS: Fluent Fonts—CasadyWare Inc.;
Macintosh, ImageWriter, LaserWriter—Apple Computer.
