

LIBRARY

79 POSTSCRIPT TYPEFACES & STYLES

FLUENT LASER FONTS™

ATM™
COMPATIBLE

FREE
6 month subscription to
Publish
Magazine

The Fluent Laser Fonts Library is a remarkable font package at a remarkably low price. This Library contains 79 different Type 1 fonts that work on PostScript® printers and are compatible with ATM (Adobe Type Manager). When used with ATM, these fonts can also be printed on many non-PostScript printers. This beautifully designed font collection is easy to install and easy to use. Fluent Laser Fonts can be

printed at any size your software allows and will print at the maximum resolution of your PostScript compatible printer, no matter what point size you select. PostScript hinting technology and extensive kerning pair information are included in most styles, adding professional quality to your printouts. A variety of clean screen fonts are also included for optimum screen representation.
