

**DH Sound Info (Click Me)**

IF YOU WANT SOUND the Dash Hansen sound file MUST be copied onto a floppy disk named D. Hansen Sound, and kept as a file named DH Sound Library. Do not put the file in a folder!

DO NOT CHANGE THIS NAME FOR SOUND DISK OR FILE. Dash needs the exact file path to find the sounds. Though the sound disk must be run from a floppy, you can copy the Dash Hansen™ game file onto a hard disk. Always save games to the game disk, as the sound disk is full!

Start the game from the game disk. Good luck!

More hints and info during start up screen of Dash Hansen itself.
