EAT MY PHOTONS!

THE GAME SO REAL SOMEBODY
COULD GET HURT

Fastest 3-D Game for Macintosh

EAT MY PHOTONS!

ONE BLAST FROM AN ENEMY LASER GIVES A WHOLE NEW MEANING TO THE WORDS "EAT LIGHT." SO ZIP ON YOUR G-SUIT AND JUMP INTO THE COCKPIT OF A FLIGHT SIMULATION WITH AN ATTITUDE!

★ INCREDIBLY FLUID 3D GRAPHICS: FASTEST SPACE SIMULATION EVER!

★ STUNNING SOUND EFFECTS, AND AN ORIGINAL MUSICAL SCORE!

★ CHOOSE BETWEEN STELLAR AND GROUND MISSIONS AT EACH LEVEL; IT'S LIKE TWO GAMES IN ONE!

STELLAR MISSION

SHIELDS UP!

SIMULTANEOUSLY

ENGAGE THE HOARDS OF DEADLY DRONES CONVERGING ON YOUR STELLAR OUTPOST, AS THE INVADING FLEET HUNTS YOU DOWN IN THE GALACTIC DOGFIGHT OF THE MILLENNIUM. LOCK LASERS ON TARGET FROM THE HEADS UP DISPLAY, BUT SAVE YOUR SMART MISSILES FOR THE ENEMY HYPER-FIGHTERS; ONCE YOU MAKE VISUAL CONTACT, IT MAY BE TOO LATE!

THE ENEMY HAS LANDED! RACE OVER THE FULLY TEXTURED SURFACE OF YOUR HOME PLANET AS YOU DODGE OBSTACLES AND PICK OFF ENEMY INVADERS. POLAR, EQUATORIAL, AND TEMPERATE REGIONS HAVE THEIR OWN DISTINCTIVE TERRAINS; EVERY MISSION IS A RANDOM SCENARIO WITH NEW CHALLENGES.

GROUND MISSION
