F40 PURSUIT simulator™

F40 PURSUIT simulator™

You're at the wheel of the fabulous Ferrari F40, in a race against time. As you go tearing through four states in search of the quickest way to accomplish your mission, you will have problems with the policemen who don't appreciate the sight of a Ferrari F40 crossing their state at 200 miles per hour...

But it's not that easy !

You must plan your route carefully from the map of each state displayed on screen. It will show the actual byways that you will speed on. Beware, the shortest routes aren't always the easiest as the sight and sound of a blue flashing light will soon make you realize.

Your Ferrari features the latest radar, enabling you to detect police road blocks. They've been set up to stop you, therefore keep an eye on the freeway junctions as you may be forced to change your direction !

With 360 degree spins, car chases, realistic 3D road junctions, hills, road blocks, real mapped byways, and not to mention superb graphics, F40 Pursuit Simulator is here to set new standards in road racing. Don't just take our word, test drive the game today !
