& Sounds

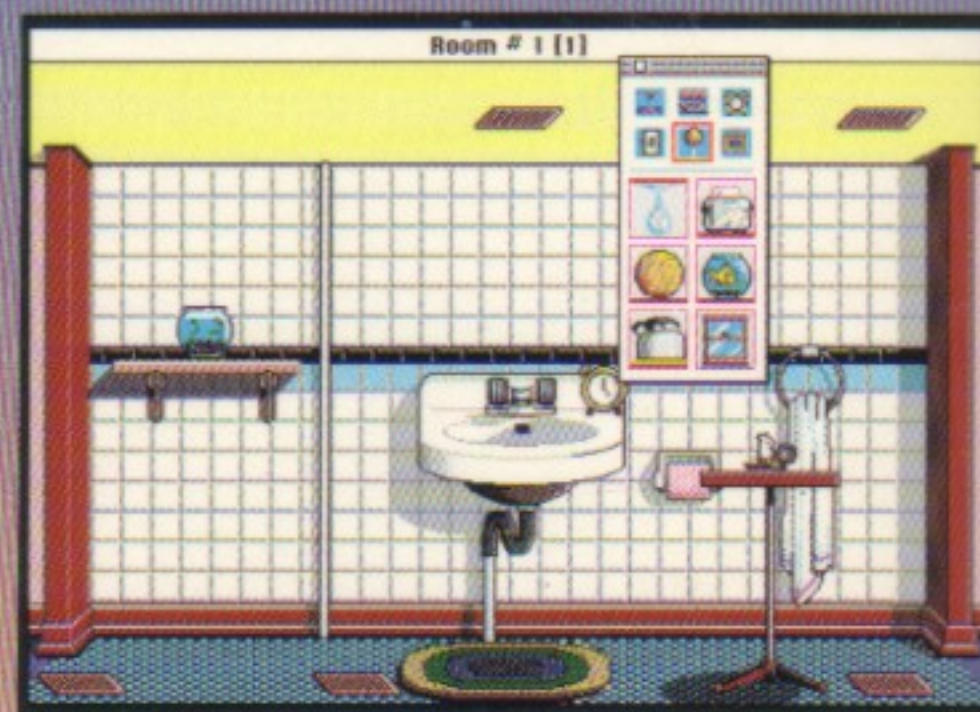

◆ Supports Color
or Black & White

◆ Includes Game
Editor

Glider 4.0

Take a paper airplane - add an eerie mansion plus a gung-ho game lover. They all add up to some serious fun! Fly your Glider from room to room trying to get past the wildest obstacles ever, including mysterious little copters, air vents, electric wall sockets, and our personal favorite - the dreaded paper shredder! Each one of the 60 rooms holds some new surprise that will tickle you. The idea is to get past them all and fly out of the house. Increase your Glider's altitude and gain momentum from floor heating units and lit candles. If you master the game, you can use the Room Editor to create your own versions of obstacle-filled rooms. John Calhoun, a wizard programmer from Kansas, has created the cleverest bunch of graphics to ever come down the Yellow Brick Road. Glider will keep you saying, "One more time, just one more time, I can do better than that!" And the great thing is - YOU CAN!

GREAT NEW HOUSES FOR GLIDER 4.0!

Loved Glider 4.0 and want more? By special request from Glider fans, John Calhoun has built the "Mad House". All the fun, frenzy, and madness that made Glider 4.0 so much fun has been put into this new 64-room house with dead ends, circular routes, and unexpected twists.

More Glider also includes the six best houses created by enthusiastic Glider 4.0 players, who went wild with the Room Editor. John looked at hundreds of houses and chose these six as the best. Some are easier than others but all show wild and crazy inventiveness.

New art files have been added to liven up the houses. There's also a much demanded utility to clear the High Scores Table.

Humor and challenge is injected into each room to provide us with what each of us wants—more—and more—and More Glider!

REQUIREMENTS: Can only be used with Glider 4.0.

Suggested Retail Price: \$19.95
