Harpoon is the most popular computer naval simulation ever released. Harpoon is the first unclassified computer simulation that illustrates how to best conduct a major sea campaign under modern warfare conditions. Experience the excitement and tension of actual battle simulation based entirely on fact.

By combining and updating original Harpoon products, **HARPOON CLASSIC CD** offers a complete database of details about platforms, weapons, sensor technology, geography, tactics, strategy and hundreds of variations that influence modern naval warfare. Adding 48 new scenarios, which brings the total in this package to over 200, **HARPOON CLASSIC CD** contains everything ever produced for Harpoon, including all 4 battlesets, all 3 Designer Series and the Harpoon Scenario Editor.
