Taking Items

Often when your playing you will come across someting you will want to take. To do this click on the item or type "get { { Item} } "or"take{ { Item} } " If you cannot take it , ESCAPE! will respond accordingly.

Fighting

If you come across a hosile monster , you must fight it. To do so , select a weapon from the Weapons menu. ESCAPE! automatically computes your chance of a hit , and damage. You may also type for example , "Swing Sword" to use the sword.

The COMMANDS

You can select commands from the menu of the same name to do things. Such as , you pull down the menu and select "North" and it will move you north. You can also type commands.

Offering and accepting

When fighting a monster , and you are being defeated , it is a good idea to offer a monster items. To do this , type "offer" and the name of the item. An example of this is "offer ball of twine"

To accept a monster's offer , type "accept".

Hints on play

An object may be hidden in many scenes. Use the **Search** command to search an area. If an object is hidden , Search will find it. Sometimes Searching will not reveal anything.

-Remember-

If you enjoy this game and would like to see more , I would like you to send a mere pittance of money - only 5\$, while other games cost 25\$. The money you send will make a new and exiting game possible! Send your money to:
