

The Contini Aircraft Company of Long Beach, California is proud to release Volume I of what hopefully will be a long line of aircraft for Microsoft Flight Simulator 4.0 for Macintosh.

Below are details about the aircraft included in this package.

Contini GJ-270

Jet aircraft. Maximum recorded airspeed 270 knots. Requires a long runway (Chicago Meigs is usually okay).

Contini GJ-438

Jet aircraft. Maximum recorded airspeed 438 knots under time limit. Uses about half of Chicago Meigs runway.

Contini GJ-446

Jet aircraft. Maximum recorded airspeed 446 knots under time limit.

Contini GJ-476

Jet aircraft. Maximum recorded airspeed 773 knots. Requires a long runway (Chicago Meigs is sometimes okay; longer would be a little better).

Contini GJ-773

Jet aircraft. Maximum recorded airspeed 773 knots.

Contini GJ-775

Lightweight jet aircraft. Maximum recorded airspeed 775 knots.

Contini GJ-780

STOL jet aircraft. Maximum recorded airspeed 780 knots.

Contini GP-166

Prop aircraft. Maximum recorded airspeed 166 knots.

Contini GP-170

STOL prop aircraft. Maximum recorded airspeed 170 knots under time limit.

Contini GP-212

Prop aircraft. Maximum recorded airspeed 212 under time limit.

Contini NJ-036

Jet aircraft. Incapable of flight. Maximum recorded ground speed 36 knots.

Contini NJ-107

Jet aircraft. Incapable of remaining airborne. Maximum recorded airspeed 107 knots.

Contini NJ-189

Jet aircraft. Incapable of in flight turns. Maximum recorded airspeed 189 knots.

Contini NJ-369

Jet aircraft. Incapable of controlled takeoff and in flight turns. Maximum recorded airspeed 369 knots.

Contini NP-036

Prop aircraft. Incapable of flight. Maximum recorded ground speed 36 knots.

Contini NP-056

Prop aircraft. Incapable of in flight turns. Maximum recorded airspeed 56 knots.

Contini NP-103

Prop aircraft. Incapable of in flight turns. Maximum recorded airspeed 103 knots.

These aircraft were created by David & Daniel Mueller. Feel free to give these to other people, but please give them the complete package.

We hope you enjoy flying these aircraft (at least the ones that work). Email your comments to: dsmueller@besler.org
