

MacGolf™ *Classic*

The Premier Graphic Golf Simulation.

For the Macintosh™ Plus, SE, and II.

An expanded edition of the #1 Macintosh
entertainment program in the world.

MacGolf™ *Classic*

Every challenge should be this spectacular.

MacGolf Classic puts you into a full perspective 3-D simulation of the most vivid, stimulating golf action on any computer. With beautiful 16 color graphics on the Macintosh II.

That's you, up on the screen, matching your skills against unfair fairways, rugged roughs, bunkers, water hazards, sand traps and trees.

MacGolf Classic displays a player's-eye view of the course in any direction. The split screen shows an aerial overview of each hole to help you plan your strategy.

True-to-life golfing.

MacGolf Classic gives you a complete selection of all 14 clubs for every stroke in the book. You have total control of your position, ball placement, ball speed and direction. You can hit the ball high or low, hook it or fade it. The ball's trajectory follows true golf ball dynamics.

The on-screen player is actually digitized directly from a golf champion in action. The graphics on the courses can only be described as awesome. Superb sounds add to the excitement with a realistic swish of the club, splash of a water hazard, splat of a sand trap – even applause for a good putt.

Improving on the best selling Macintosh game in the world wasn't easy.

MacGolf Classic is the one entertainment program that could become more popular than MacGolf. With many outstanding premium features, it is worthy of the "Classic" name. This is MacGolf par excellence.

Choose your challenge.

With a total of 108 holes to play, combining the two original MacGolf courses with the four tougher MacCourses™, there's no end of stimulating situations. Changes in wind speed, wind direction

and putting green slopes make MacGolf Classic a new game every time you play.

You can play a full course or nine holes – against the computer or with up to a foursome. Each player can independently select one of three skill levels. If you want to warm up first, there are nine practice greens and a driving range.

Definitely not a spectator sport.

MacGolf Classic is exercise for the mind. It's a thinking person's game that places a premium on analyzing each situation and applying sound strategy. There are even close up viewing options for the real MacGolf strategists.

Improve your golf skills.

MacGolf Classic is so close to the real thing it can help you sharpen your golf game in such critical areas as club selection, shot placement and stance. In MacGolf Classic every day is sunny, every hole is perfect and there are no divots to replace.

And by the time you've reached the nineteenth hole you'll know you've been in a real contest. 100% satisfaction guaranteed.
