# INLINE DESIGN SOFTWARE REGISTRATION CARD

Thank you for purchasing Mutant Beach! When you return the enclosed card you'll find out about upgrades. You'll also receive our quarterly newsletter, which is full of high scores, hints and information about upcoming products. We even spring for the postage! Trust us, it's worth it. Come on, do it now, before you start playing.

**PROBLEMS:** Inline Design tries very hard to offer the most universally compatible and bug-free games in the Macintosh market. However, every now and then a problem does arise (OK, so we are not quite perfect.). If you have difficulties playing your game, or are dissatisfied with it in any way, **we would appreciate your getting in touch with us** before you return it. Many problems are very easy to fix, and we know you'll enjoy the game once it's running. There are many ways to reach us and they are all listed on the other side of this card.

**COPY PROTECTION:** You may have noticed that this game is not copy-protected in any way. That's because Inline Design believes that games should be easy to use, and we personally don't like jumping through hoops designed for the rare dishonest person. However, **we depend on you not to copy your game illegally**, and to educate your friends about the damage that piracy does to you, the legitimate game owner, and to us, a publisher with ideas for nifty new games. Again, thanks for purchasing an Inline Design game!
