Quick Reference Card

Air Traffic Schedule Panel   The Schedule Panel displays eight columns of information for each aircraft as summarized below:

Column 1	Aircraft Status Symbol
Column 2	Aircraft Type
Column 3	Aircraft Heading and Altitude
Column 4	Commanded Heading and Altitude
Column 5	Entry Point
Column 6	Exit Point
Column 7	Remaining Fuel
Column 8	Entry Time

Aircraft Status   These symbols are used to show the current status of the aircraft:

"＞"	Aircraft not yet in your sector
" "	Aircraft in the air, under your control, and OK
"△"	Aircraft at airport and ready for takeoff
"●"	Aircraft in the air and involved in a near miss
"＝"	Aircraft on course for scheduled exit
"#"	Aircraft on course, but involved in a near miss

**Aircraft Type**   These characters show the aircraft type:

"J"	Jet Plane
"P"	Propeller Plane
"H"	Helicopter

**Aircraft Commands**   These symbols appear in the aircraft command panel, and are used to issue the following commands:

"△"	Cancel all turns, and continue on course.
"L"	Land at destination airport, when aircraft path crosses airport. (Aircraft must be at 1000 feet)
"∞"	Circle, for aircraft currently in a turn.

Legend   These symbols are used on the radar screen:

Legend

🏳	Airport #3	◇	Thunderstorm
▦	Restricted Zone	⊂Ê⊃	Prop Plane Heading E. at 6000 ft.
🔺	Hill at 5000 ft.	✕	Helicopter Heading S. at 1000 ft.
🏛	Towers at 4000 ft.	�035	Jet Heading S. at 5000 ft.
Pause	Pause Button	17:52	Shift Clock, 17:52 Remaining
