

“The Galactic
Empire Simulator”

PAX

IMPERIA

PAX IMPERIA™

The Galactic Empire Simulator

You control every aspect of a star-spanning empire. Economy, research, defense, espionage, exploration and diplomacy are your tools. Which one is right for you? With Pax Imperia™ you determine which is the right path. Will you build a fleet of mighty warships or quietly establish economic dominion?

Pax Imperia™ casts you in the role of emperor, your people are on the verge of entering the vast frontier of space. From among them you choose a cabinet of six advisors to assist in managing the resources of your world. Determine what technologies you will develop, allocate money and resources to build colony ships, and send the seeds of civilization to the stars.

But you are not alone. Across the vastness of space others share your vision. Even as you embark on your journey of exploration they could be exploring and colonizing planets nearby. How will you greet them? Will your peoples live in harmony together enjoying trade and commerce or will they be locked in conflict and deceit?

Pax Imperia™, state of the art entertainment software for your Macintosh from Changeling Software, Inc.

FEATURES:

- ☐ Support for multiple monitors, up to 256 colors and black and white
- ☐ Up to 16 empires can play in real-time or turn mode
- ☐ Talking advisors help you rule your empire
- ☐ Tactical combat simulator gives you control of fleet actions

Pax Imperia Installation Instructions

1- Make sure you have at least 4 megabytes of free space on your hard disk. The installation will not complete with less.

2- Insert the disk labeled Disk 1 into your floppy drive.

3- Double Click on the icon shown in figure 1.

Figure 1

Pax Imperia™. #1

4- When the dialog in figure 2 appears, single click on the Eject button.

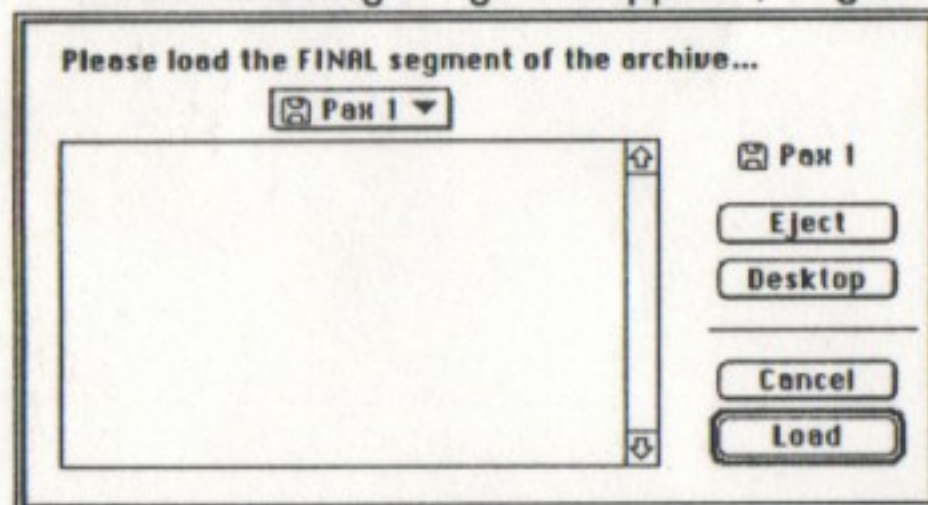

Figure 2

5- Insert the disk labeled Disk 3 and single click on the Load button. (See figure 3)

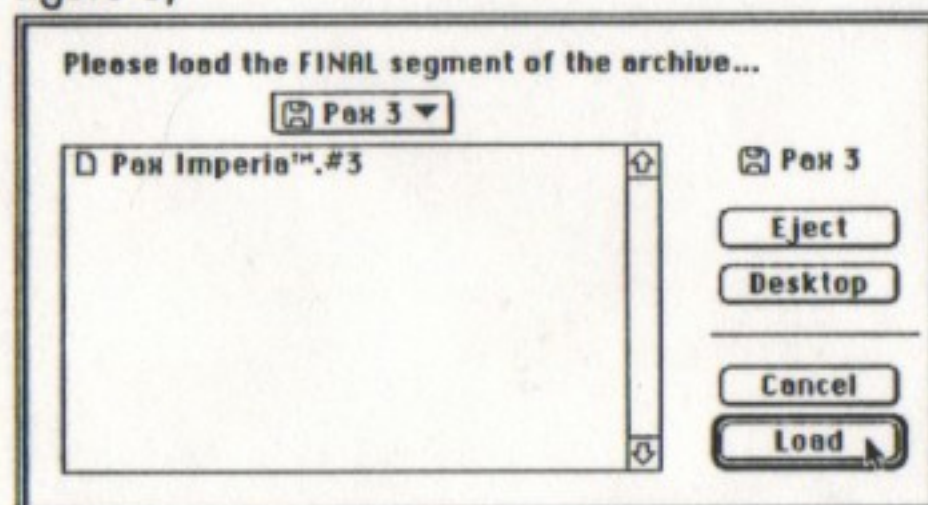

Figure 3

6- Click where the arrow cursor is in figure 4 to see a list of hard disks where you can install Pax Imperia™.

Volume:

Folder:

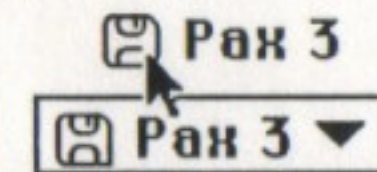

Figure 4

7- Select the hard disk where you would like Pax Imperia™ to be installed (See figure 5). The Pax Imperia™ folder will be installed on the disk that shows at the top of this dialog. The installation will not complete if this is a floppy disk.

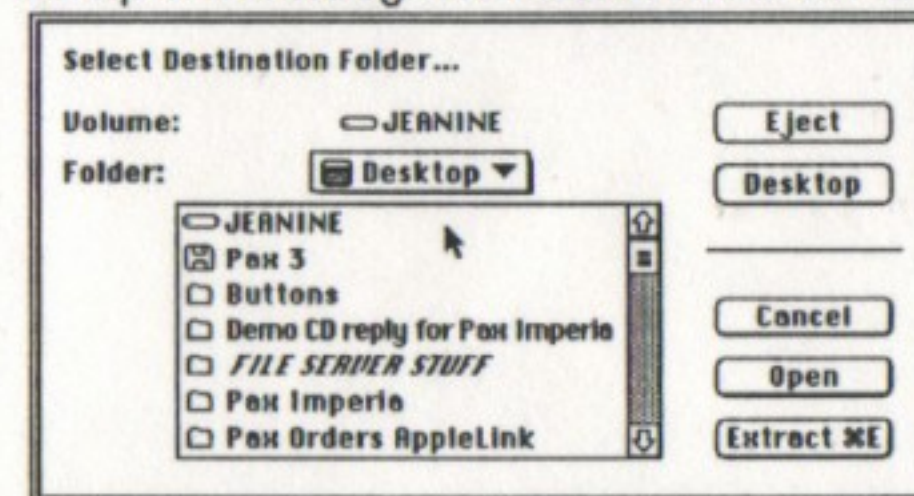

Figure 5

8- Once you have selected where you want Pax Imperia™ installed single click on the Extract button and follow the dialogs for when to insert the disks the installer will require to assemble Pax Imperia™ on your hard disk.

9- Eventually the installer will ask you for Segment 2 of the archive. Eject the disk currently in the floppy drive (either press cmd-shift-1 or select the floppy disk in the dialog and click the Eject button) insert the disk labeled Disk 2 and click on the Load button.

10- Insert disks as requested by the installer until installation is complete. You will find the Pax Imperia Folder on your hard disk in whatever location you've chosen to have it installed.

That's it! Pax Imperia™ is now installed on your hard disk. Enjoy!

Dear Pax Imperia owner,

We at Changeling Software, would like to say thank you for purchasing Pax Imperia. To show our appreciation we would like to extend all registered users the offer of a free upgrade from version 1.0.1 to version 1.2 (when it ships).

Version 1.2 will include a number of enhancements to the existing software.

First and foremost in version 1.2 the computer emperors will be an order of magnitude more intelligent than in version 1.0.1. There will also be a number of performance increases that will serve to make Pax Imperia an even more engaging experience including network play. All we need from you is a returned registration card, that's it.

Thanks again and we hope you enjoy Pax Imperia.

The Folks at Changeling
