# Tips

Here are some tips for SWS...

## **Women's Matches**

Run a normal match, after the match copy and paste the match into a program such as ClarisWorks. You can use a command called find-change to change all him to her and all the he to she. That is all you need!

## **Try Different Combos**

Some wrestlers may not be good at normal, one on one matches... but don't give up! Try your wrestler in some different matches! Perhaps he specializes in Cage matches, or Ladder, or perhaps the Hardcore Falls Count Anywhere matches!
