STRATEGIC LEAP™

THE ANCIENT OBSESSION OF CHECKERS MEETS THE CUTTING
STRATEGIC LEAP
 EDGE OF TECHNOLOGY™

It's checkers and a whole lot more. Cast magic spells, place bombs, zap your opponent, shield pieces, transport pieces and much more!

Create unique games with the myriad of rule options and game variations. Play against the computer or a friend.

Choose from 14 different playing boards or design your own.

CHECKERS, PLUS A WHOLE LOT MORE

It's easy to understand why checkers has been a premier game of nobility for over a thousand years. But, Strategic Leap is much more than checkers. It's a whole new way to play the game.

Cast magic spells. Block your opponent's moves with carefully placed bombs. Transport your pieces into strategic locations. Resurrect pieces back to life. Plot a good strategy and enjoy the feeling of capturing your opponent's final piece.

EASY TO PICK UP. IMPOSSIBLE TO PUT DOWN

Strategic Leap is based on checkers. So, it's easy to get going. But stopping? Well, that's another matter. This

captivating game of strategy guarantees hours of mind-stimulating challenge.

CHALLENGE A FRIEND OVER THE NETWORK

Found someone with the guts to take you on? Great! You can upgrade for free* to Strategic Leap for Networks. It lets you do battle over any Appletalk network and will be available in January of 1995. You can beat any possible price increase by purchasing Strategic Leap today!

PLAY AGAINST THE COMPUTER

When you play against the computer, you can choose from any of four different levels of difficulty. This is one game that will challenge both beginners and masters!

Affordable Software for the Rest of Us

MACSoft™

Finally, affordable high-quality software for the Macintosh.

Since you own one of the world's most powerful computers, we're sure you want to take advantage of its many capabilities. Unfortunately, most Macintosh software is priced to keep you from using your Macintosh as much as you could.

Until now.

This brochure shows many of the new products in the MacSoft line. Each of these products is designed to be both useful and enjoyable. Best of all, each product is priced affordably.

You'll find most of these products in stock now at your favorite computer store. Or, if you'd prefer, you may order any of these products directly from MacSoft.

MacSoft

MacSoft is a wholly-owned division of the WizardWorks Group. WizardWorks has been publishing affordable software for DOS, Windows and the Macintosh since 1990, and is now one of the fastest-growing publishers of software for homes and small businesses.

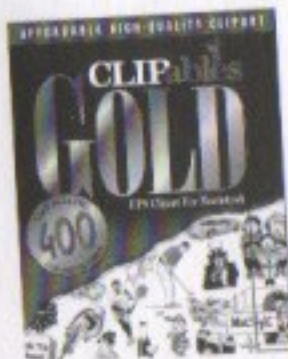

Macintosh Game Pack

The Macintosh Game Pack includes three action-packed arcade games. **Diamonds** is a fast-paced brick-style game that was called "the most addictive game since Crystal Quest" by MacUser magazine. **JewelBox** is a Super-Tetris type of game that was rated 4 stars (out of a possible 5) by MacWorld magazine. **Sparkz** is a brand new challenging game of strategy and skill.

These three games are some of the best arcade games ever available on the Macintosh. They're sure to bring you hours of excitement and challenge!

MSRP \$49.99

Clipables Gold

Clipables Gold contains over 400 of the highest-quality EPS clipart images available. Each of these images is hand-rendered by professional artists with years of design experience.

Unlike many other clipart packages, Clipables uses the EPS format to store each image. This means that every clipables image will print at your printer's best-possible quality. You can even enlarge, reduce or stretch these images. Clipables will print on virtually any printer, including laser printers, ink-jet printers, image setters and dot-matrix printers. What's more, you can place Clipables art in any document created by an application that supports EPS, and most Macintosh applications support EPS.

Categories included: Business, Display Banners, Environment, Figures, Holidays, Humor, Music, Sports, Symbols, Transportation, and seven other categories. MSRP \$29.99

TrueType Font Pack

Create attention-getting documents with this package of 100 premium-quality fonts. Each of these fonts has been designed to print laser-smooth, regardless of how large or small you make the type.

Works with any Printer

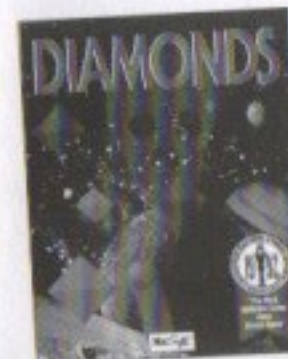

Because these fonts are TrueType fonts, you can print them using virtually any kind of printer, including laser printers, ink-jet printers, image setters and dot-matrix printers.

Works with any Application

Once installed, you can use these fonts with any Macintosh application.

Easy to Install

Installing these fabulous fonts couldn't be easier! Just drag these fonts to your system folder and they'll automatically appear in every application's "Font" menu. MSRP \$29.99

Diamonds

"The most addictive game since Crystal Quest" —MacUser
Experience the challenge of the year's best arcade game! Diamonds requires quick logic and a skilled hand as you try to conquer the diamond treasure and avoid instant death from the evil patrol guards.

Throughout the game, the latest high resolution graphics, music and sound effects add excitement to the challenge.

Once you think you're good enough, you may want to create your own levels with the built-in editor. Plus, you can challenge a friend by exporting any level you create. Diamonds works with both color and black-and-white monitors. MSRP \$29.99

Blackjack

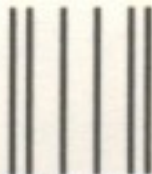

With Blackjack for Macintosh, you can play realistic casino Blackjack on your Macintosh and learn how to master the game. Besides great graphics and digitized speech, Blackjack for Macintosh includes numerous options to help you learn the best playing strategies.

Also included is the booklet "Play to Win!," which will teach you everything you need to win at Blackjack, including playing strategies, card counting, betting strategies and casino techniques.

The program is extremely flexible, even allowing you to customize the game rules to your favorite casino. It's the best Blackjack experience available on a computer! MSRP \$29.99
