ACTIVISION

# SARGON™

WORLD CLASS CHESS

LEARN PRACTICE AND PLAY  
THE WORLD'S MOST CHALLENGING  
BATTLE OF THE INTELLECT!

The Chess Tutor and Opponent for the Novice  
and Expert Alike

## PLAY WITH THE MASTERS

Pit your skills against an opponent with moves from professional games such as Karpov-Kasparov 1990 — thanks to International Chess Master, Dr. Danny Kopec. Try to anticipate the moves of the masters as you play Annotated Games. Guess at the right move, then learn if a move isn't necessarily the best one and why. Sargon

will even tell you which move you should actually make. The ultimate test? Select Tournament Play and challenge Sargon V at its most brilliant skill level under strict tournament time limitations.

## MAKE YOUR MOVE

Just point and click on your screen. Then watch your chess piece move across a stunning 3-D board. Set your game to

Beginner Mode, and Sargon will highlight all the squares you can legally move to with each piece you select. Replay a move from any point in the game just by clicking on the Move List. And, while you perfect your strategy, save a series of moves to analyze later.

## CHECKMATE

Make Sargon V your private chess mentor — and blow your opponent off the board in your next game!
