IMPROVES READING  
SKILLS

IMPROVES  
COMPREHENSION

IMPROVES VOCABULARY

books are read 20 times more often than an ordinary children's book. What a great way to improve a child's vocabulary and cognitive reading skills. Imagine the joy and entertainment your youngsters will receive as they read about themselves!

The program itself is simple to use. Build a Book works with ALL the popular printers and automatically sends the story output to your printer with only one keystroke.

Everything you need to print and bind two storybooks is included in the package: two colorful illustrated page sets (32 pages each), two durable oversized hard covers, binding materials, and a software disk with two stories. You can also reorder the original stories or order two new ones.
