The tracker system used by both Hotline and KDX allow users to easily find the servers they're looking for by tracking all online registered servers. While once many trackers existed, there are only a select few now due to the decline in popularity of Hotline and KDX. The Higher Intellect tracker is still active though not as large as others. We have included the listings of some still active trackers below for Hotline (Last updated: 10/31/2016).
