SOUND LIBRARY 2000

PLEASE READ THIS FILE:

Read Me

QUICKSTART:

- Insert the CD-ROM
- Double click on "SoundLib 2000 1.00"
- Introductory sounds will play (press and hold down the mouse to not play these sounds)
- Click the mouse on the intro screen to continue
- Click on one of the ten category icons
- Once in a category list, click on a sound name to play, or click "Play All"

To install a sound into your system:

- Click on the selected sound and play it, then click "To Clipboard" this puts the sound into the clipboard

To install a sound from the clipboard into your system:

- Open your Control Panels (under the Apple Menu)
- Select the Sound Control Panel
- Paste the sound into your system (it will ask you to name the new sound)

FOR ADVANCED USERS:

- Look at this HyperCard stack for techniques to use and play sound files
- The "Copy" button in the stack allows you to change the formats of the sounds
