SCREEN SAVER

DELFINA 

INTERMISSION™ 4.0

Intermission 4.0 puts the largest library of screen saver capabilities at your fingertips. Not only do you get over 50 incredible screen saver displays and interactive games, but a whole lot more because we've added many things that you won't find together in any other screen saver.

First, try our morphing module which lets you easily transform images right before your eyes. Mac users can select their own GIF, TIFF, or PICT images. Or select any images provided and watch them change. And then there's the awesome new 3D animations. You'll be mesmerized as you watch these 3D animations evolve on your screen.

Want more? No problem. You can make your own modules with our MultiSaver module or

3D animations feature moving images with realistic shadowing and light sources that make the images jump right out of your computer!

our developers kit. Intermission will even run modules from many other popular screen savers so no need to worry about losing your old favorites.

Experience Intermission 4.0—and you'll experience the "Total" Screen Saver.

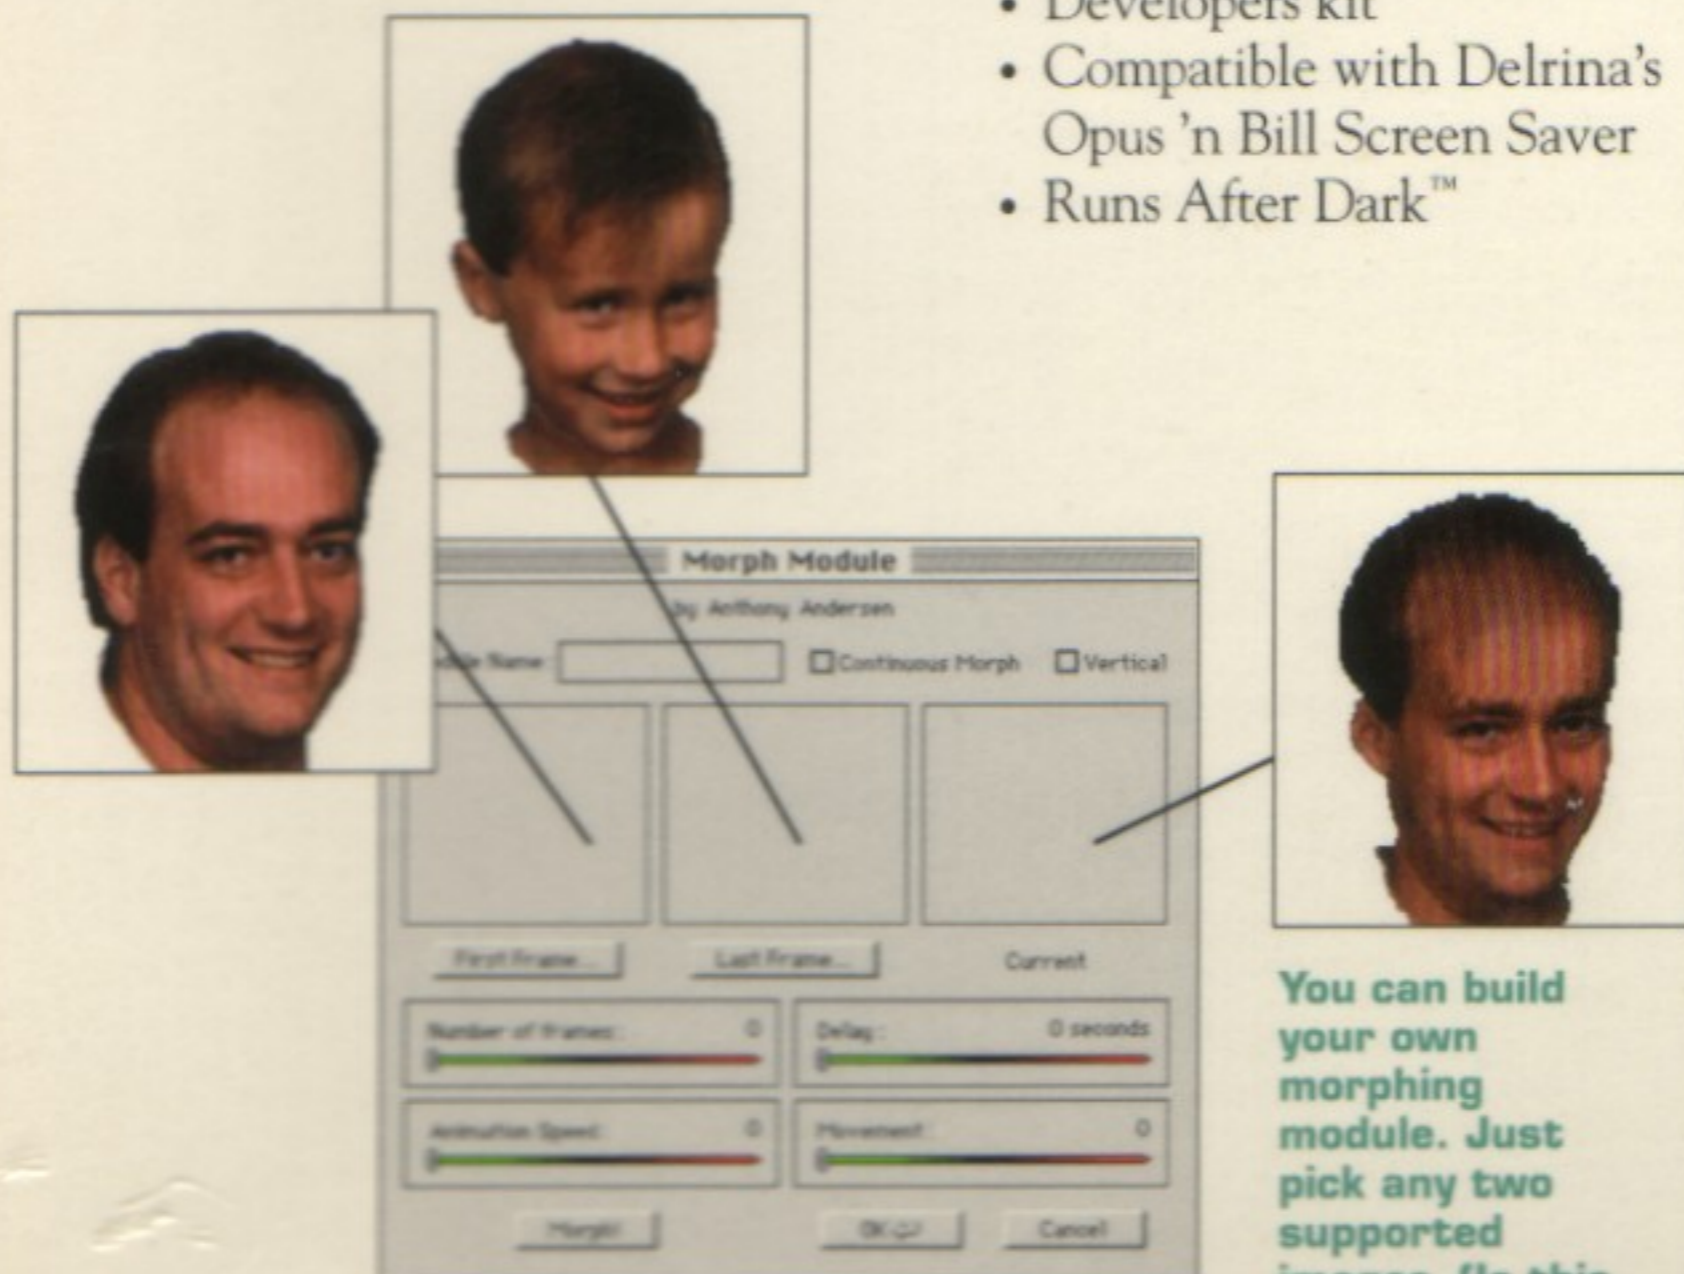

Other exciting product features include:

- Advanced security features
- System CPU monitoring
- Stunning sounds
- Developers kit
- Compatible with Delrina's Opus 'n Bill Screen Saver
- Runs After Dark™

MAC SYSTEM REQUIREMENTS

- Macintosh II LC or later model
- 2.5MB of RAM
- Hard Disk with a minimum of 2.5MB free space
- Requires 6.0.7 or later, System 7 compatible

You can build your own morphing module. Just pick any two supported images. (Is this cool or what?)
