Prevent Screen Burn-in!

Beam aboard the U.S.S. Enterprise™ with Captain Kirk, Mr. Spock and all your favorite Star Trek® characters on a mission to prevent screen damaging phosphor burn-in. You'll encounter troublesome Tribbles, visit Dr. McCoy's sickbay, and battle a Romulan bird of prey in this incredible new screen saver inspired by the original Star Trek TV series.

When you leave your computer on but unattended, images burn in to your screen causing permanent damage. Star Trek: The Screen Saver prevents burn-in by automatically displaying animated screen art. A password security system lets you protect your screen from prying eyes, and the SystemIQ™ task manager maximizes system and network performance while running Star Trek: The Screen Saver.

Star Trek: The Screen Saver also features authentic AudioClips™ from Sound Source Unlimited — the actual sound effects, music and dialog from the original series.

Now your monitor will "Live long and prosper™" with Star Trek: The Screen Saver.
