

Dear FileMaker, Inc. Customer:

Thank you for your purchase of this FileMaker, Inc. product.

The transformation of Claris Corporation into FileMaker, Inc. is proceeding quickly. The FileMaker Pro line of database software is strong and growing, and we are changing our company to focus exclusively on creating more and greater products for our customers and developers.

Your support has led to significant growth for FileMaker Pro: it is the most popular stand-alone database software for the Macintosh and is the second most popular database software for Windows (retail sales not including suites), with about 3 million units distributed and 2,500 developers, consultants and trainers. Sales of the Windows versions more than tripled during the past two years.

You may notice the names and logos of both FileMaker, Inc. and Claris Corporation on product boxes, in manuals and within our software until this transformation is complete. We're gradually phasing in the new FileMaker, Inc. name and logo to assure a steady delivery of software to our customers during the transition.

Thank you for your support as we write the next chapters in the FileMaker, Inc. story.

Sincerely,

A handwritten signature in black ink, appearing to read "D. Goupil".

Dominique Goupil
President
FileMaker, Inc.
