

SoftDock

Personal Software designed especially for the Macintosh Computer 

Introducing...SoftDock Journals

We take pictures of what we see with our eyes all the time, and they become precious memories to us. Journaling allows us to take pictures of our thoughts. Whether you are a novice, a beginner, or are thinking about keeping a journal, SoftDock offers you a unique and creative way to capture your thoughts so they, too, become as precious to you as your photo albums. Softdock Journals are appealing to adults and simple enough to use for a child who is just beginning to write.

- * SoftDock journals are designed for **simplicity and elegance**.
- * **Password protection**.
- * **Automatically saves** every word you write at that very moment.
- * Easy **searches** for **specific days**, or a **specific word**.
- * **Print option** allows you to save a hard copy of your journal entry.
- * **Export** journal to other applications.
- * Choose from **four styles all included in one application**.
- * Styles that will **appeal to everyone** in your family.
