The Ultimate Page Processor™

READYSETGO

Page Processing Program

Use the new READYSETGO for all your writing and designing needs.

- Create ads, brochures, newsletters, flyers, forms, packaging, logos, resumés, proposals, labels and manuals of up to 40 pages in length.
- Increase your productivity with a built-in document editor suitable for volume text entry. Text can also be imported from any Macintosh program.
- Use a handy reflow facility to flow text between columns and pages throughout your document.

Produce professional-quality documents quickly with READYSETGO.

- Bring in graphics from any Macintosh program. Full graphics editing facilities include scrolling, cropping and scaling. Lines and boxes are easily added.
- Maintain full design control with unique free-form block placement. Vary line spacing and point sizes for maximum flexibility and quality.
- See on screen what you get before you print. Preview single or double-page spreads.
- Print your documents on an Apple® LaserWriter, ImageWriter or Linotron® 101/P and 300 typesetters.

READYSETGO features direct editing of text and graphics.

Professional results are easy with READYSETGO.
