HARDWARE and SOFTWARE used to create *TV-ROM Too*.

Optimal Configuration:

Macintosh Centris 650 8/230, RasterOps MediaTime board with MoviePak daughterboard, FWB Hammer 1.2 GB external hard drive, SONY CVD-1000 V-deck, and Adobe's Premiere 3.0

Frugal Configuration:

Macintosh Ilci 20/230, SuperMac VideoSpigot, Macromedia MacRecorder audio digitizer, Peripheral Land Inc. 645 MB Turbo external hard drive, SONY CDC V-801 Hi8 camcorder, and SuperMac's ScreenPlay

Alternative Configuration:

Macintosh Centris 650 8/230, Radius VideoVision, PLI 1.2 GB external hard drive, SONY CVD-1000 V-deck, and HATNET's QT-Paradise

Additional Hardware:

APS 1.3GB DAT drive for backup, Macintosh II 8/40, DPI 44MB Syquest drive, Apple CDSC Plus & NEC CDR-36M CD-ROM drives, RasterOps Col-

orBoard 364, Kodak's Photo CD, LaCie's SilverScan, misc. VHS, VHS-C, and Video8 video sources.

Additional Software:

Apple's ConvertToMovie, Movie Converter, MovieShop, Movie Analyzer, ComboWalker, PICT Compressor, MovieMaking Stack, Movie Recorder, MoviePlayer, ResEdit, Disk First Aid & of course, the QuickTime extension • Adobe's Photoshop and Illustrator • Vision Software's CameraMan • Baseline Publishing's Spectator • Gryphon's Morph • Delta Tao's Monet • HATNET's VideoParadise • StackToPICSFile • Aldus's Fetch and SuperPaint • Claris's HyperCard and QuickTime Toolkit • RasterOps MediaGrabber • Macromedia's SoundEdit Pro • Symantec's Norton Utilities • Fifth Generation Systems' Public Utilities for Macintosh • Dantz's Retrospect • FWB's Hard Disk Toolkit

SOFTWARE LICENSE

As a registered owner of the *TV-ROM Too*, you can use the contents of *TV-ROM Too* to enhance your printed or digital materials without paying any additional licensing fees.

If you use the content, please credit *BMUG's TV-ROM Too* as the source. Also, certain images/movies are the artistic expression of specific artists. They have given their permission for you to use these clips. We ask that you acknowledge their work. Artists' names and how to contact them can be found in the MooV Library and PICT Library stacks.

The contents of *TV-ROM Too* may not be duplicated or manipulated for resale in the form of a clip art collection, film or digital media library. However, you can contact BMUG for more information on distribution.

GETTING STARTED

Make sure your system meets the "Minimum system requirements" printed on the outside of this package.

Insert the CD in your CD-ROM drive. You should see the purple *TV-ROM Too* icon, and a window with several icons and folders on your screen. If you don't see the icon and window, check the directions for your particular CD-ROM drive to ensure that you are using it correctly.

Copy QuickTime to your Extensions Folder, which is in your System Folder and restart your computer. (Skip this step if you have QuickTime 1.6 or later installed.)

Double-click the START HERE document to open it.

HAVE FUN!
