or
NEXTSTEP®

METAMORPHOSIS® Professional

METAMORPHOSIS[®] Professional

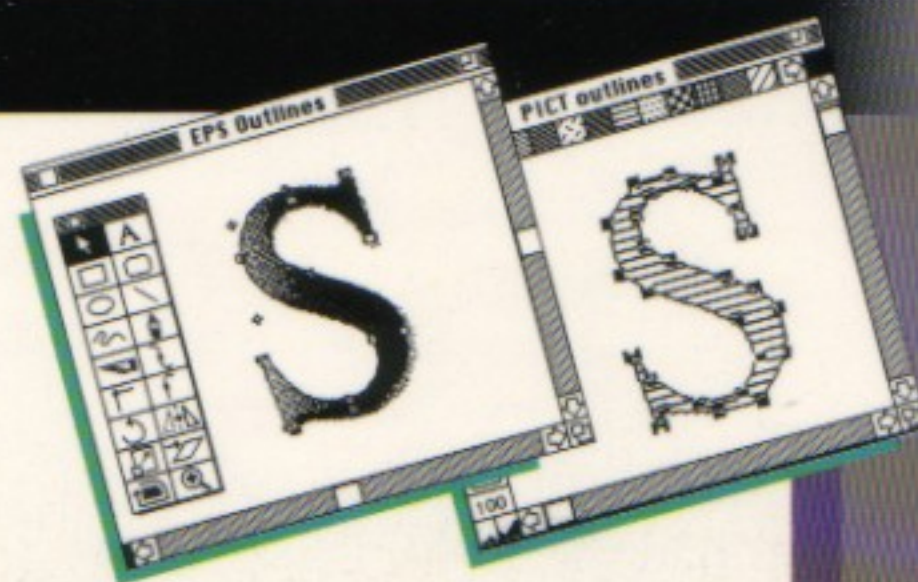

the complete font conversion utility

- ▶ *Converts TrueType[®], PostScript[®] Language Type 1 & Type 3 from the Macintosh to IBM-Compatible PCs using Windows 3.0 & ATM[™].*
- ▶ *Converts between TrueType, Type 1 & Type 3 formats on the Macintosh.*
- ▶ *Converts type into PICT outlines for editing character forms & fills in programs such as MacDraw[®], Aldus FreeHand[®], Canvas[™], DeskPaint[®], and more.*
- ▶ *Converts type into EPS outlines for manipulation in drawing programs such as Aldus FreeHand & Adobe Illustrator[®].*
- ▶ *Converts TrueType, Type 1 & Type 3 from the Macintosh to Type 1 for the NeXT[®].*
- ▶ *Converts fonts to Fontographer[®] database files so you can create your own custom typefaces.*
- ▶ *Converts type using Auto-Hinting & maintains Auto-Kerning for typeset quality output.*
- ▶ *Converts fonts from most Adobe PostScript printers, printers' hard disks, or folders from networks.*

Metamorphosis[®] Professional is the utility that takes everyone into the realm of the professional typographer.

Now you have every opportunity to work with your type. Convert fonts for use in different operating systems, on different printers, and as graphic design elements in your favorite drawing programs.

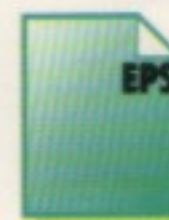

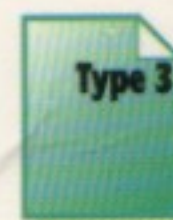

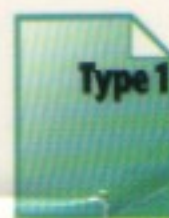

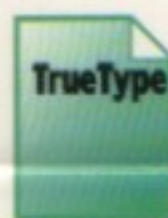

Using the latest font and graphics technology on any of several different systems, the options are endless. From converting your PostScript fonts to TrueType to converting Type 1 for use on a PC, Metamorphosis Professional is a versatile tool that fulfills your needs today... and tomorrow.

From reshaping PICT outlines in MacDraw to graduated fills in Aldus FreeHand, Metamorphosis Professional makes your fonts usable design elements.
